

In today's CC, you need to create a UI which calculates mortgage on an amount. User enters the necessary details and the UI displays the monthly payment accordingly.

**Loan Calculator**

Loan Amount: \$10000

Interest Rate: %10

Months to Pay: 1

**Monthly Payment = 11,000.00**

Note:

- No embedded JavaScript. Your JavaScript code should be written in a .js file and should be linked accordingly.
- You can design the UI in any way you like.
- Also focus on code readability and proper approach along with usage of ES6 wherever possible.
